

Resuscitative Preference Policy

Upon admission to The Apartments at Elizabeth Residence, all Tenants are asked what their code status preference is.

If a Tenant chooses “DNR” (Do Not Resuscitate), Elizabeth Residence will order a Wisconsin DNR bracelet stating that this is their wish. The cost for this bracelet of \$27.90 is the responsibility of the Tenant. You may also choose to obtain the bracelet through your primary care physician. Our policy is to have a bracelet for you if you are DNR status.

For Tenants who choose a “DNR” status:

1. Elizabeth Residence Bayside staff will **NOT** perform CPR in the event the Tenant is found without a pulse and not breathing.
2. Per the Bayside Fire and Police Departments, **911 will be called**. The paramedics will come to The Apartments at Elizabeth Residence Bayside, follow the wishes of the DNR bracelet which is not to resuscitate, and call the Medical Examiner.

I DO NOT want to be resuscitated and am considered **DNR**.

Note: Without a DNR bracelet, paramedics are required to perform CPR on people found not breathing and without a pulse. Having the bracelet will ensure that, in the event of an emergency, the Tenant's wishes will be known both on and off our campus.

I am including a \$27.90 check made out to *Sticky Jewelry*.

*The enclosed form **MUST** be filled out in order for us to order the DNR bracelet.

For Tenants who choose to be “Full Code”:

1. The staff of Elizabeth Residence Bayside will **NOT** perform CPR if a Tenant is found without a pulse and not breathing.
2. Per the Bayside Fire and Police Departments, **911 will be called**, code status preference will be provided to the paramedics, and the paramedics will be responsible for determining if the Tenant can be resuscitated. If so, the paramedics will respond.

I do want Elizabeth Residence to initiate **FULL CODE** status by calling 911.

I understand that until a DNR bracelet is obtained, the paramedics respond as if the code status is full code and will perform CPR.
